

MELAVITE SG95

A member of the glycerol based product family which provides a significant amount of energy by feeding its 30% glycerol and min. 25% sugar content.

APPLICATION:

MelaVite SG95 is a cost-efficient source of energy, helps preventing energy deficiency after calving. Optimal choice for preparing animals to lactation. MelaVite SG95 liquid feed supplement can balance energy-demand after calving. It provides a significant amount of energy, 11 MJ/kg. Utilizing glycerol's positive dietary effects, it allows rapid energy intake, increases gluconeogenesis, antiketogenic and has liver protecting effect. MelaVite SG95 can notably increase dry matter intake and efficiency of digestion, improves quantity and quality of milk.

Our molasses based products have significant betaine content, which is an organic amino acid can be found in sugar beet and assists biochemical metabolism and helps keeping fluid balance in organisms.

BENEFITS:

Efficient source of energy
Fatty acid oxidation
Antiketogenic effect
Liver protection
Improved gluconeogenesis

RATIONING:

Cows:
Preparing and calving
shed 0,5kg/day/animal
High production group
1kg/day/animal.
Sheep and goat:
0,3kg/day/animal.
