

TREOVITE PLUS

High protein content liquid feed primarily for beef cattle and other ruminant animals..

TREOVITE PLUS is an easily accessible nitrogen source for microbial proteins synthesized in the rumen, containing min. 27% crude protein.

Thanks to its favorable crude protein content, certain protein carriers (extracted sunflower and rape seed meal) can be replaced for some extent in the ration.

Since it contains byproduct of yeast manufacturing, it has 7-8% total amino acid content (in the original material).

Thanks to its high betaine content (12-13% in the original material) it has the following benefits:

Acts as a preventive for anomalous metabolism, fat mobility issues, fattiness of the liver or fat liver syndrome.

Betaine efficiently assists biochemical metabolism and helps keeping fluid balance in organisms.

Increases appetite.

Rationing: For beef cattle: 1,5kg/animal/day.

| Guaranteed nutrient content values | | | | | |
|------------------------------------|----------|---------|----|-------|-------|
| Moisture content | % | 50 | | | |
| Crude protein | % | 27 | | | |
| pH | | 5,0-6,0 | | | |
| Further nutrient content values | | | | | |
| Digestible protein | % | 26,5 | Na | g/kg | 25,7 |
| True protein | % | 5,7 | Ca | g/kg | 5,6 |
| Amino acids, total | % | 7,8 | P | g/kg | 1,48 |
| Betaine | % | 12 | Mg | g/kg | 3 |
| Betaine – N | % | 1,6 | K | g/kg | 34,4 |
| NE I | MJ/kg DM | 5 | Cu | mg/kg | 3 |
| NE m | MJ/kg DM | 4,6 | Zn | mg/kg | 35 |
| MFE | g/kg DM | 55,1 | Mn | mg/kg | 41.2 |
| MFN | g/kg DM | 247,5 | Fe | mg/kg | 158,1 |

Product can be used as a granulating excipient.
Best before: for 2 months
